

1. Advanced Foundation Engineering; Principles, Performance and Prospect

Karakouzian, M., and Eslami, A., 2026"

2. Databases for Data-Centric Geotechnics: Geotechnical Structures

Edited By Tang, C., and Phoon, K.K., 2025", Two full chapters: "Relevant databased pile design approach" by Eslami, A., and Heidarie Golafzani, S. and "Role of databases in the evaluation of soil properties" Eslami, A., and Mo, P.Q.

3. Piezocone and Cone Penetration Test (CPTu and CPT) Applications in Foundation Engineering

Eslami, A., Moshfeghi, S., Molaabasi, H., and Eslami, M., 2019"

4. Drilled Shafts: Construction Procedures and LRFD Design Methods, (Translated in Farsi), Naghoos Press

Eslami, A. et al., 2016.

5. Geotechnical Engineering: Design Application and Hazards. Amirkabir University Press, (In Farsi)

Eslami, A. and Sekhavatian, A., 2013.

6. Geotechnical Engineering: Principles, Investigations and Interpretations. Amirkabir University Press, (In Farsi)

Eslami, A. and Sekhavatian, A., 2013.

7. Mat Foundation: Analysis, Design & Performance. Guilan University Press, (In Farsi)

Eslami, A., Ranjbar, M., Riazi, T., and Veiskarami, M., 2006.

8. Axial Bearing Capacity of Piles. Ministry of Roads and Transportation deputy of education research and technology transportation research institute (In Farsi)

Fakharian, K., and Eslami, A., 2006.

9. Foundation Engineering: Design & Construction. Building and Housing Research Center, BHRC. No. B-437,4th Edition (In Farsi)

Eslami, A. , 2006.
